

## About the **trutextile** range

Our brand name comes from the English word 'true', which means; real, genuine, faithful, loyal, accurate and in alignment. **tru** represents the very best you can get in quality, service, delivery and performance.

We have listened to your requirements, so **trutextile** aligns perfectly to your needs.

## About Tullis Russell Coaters

Tullis Russell Coaters is a leading UK independent coating and converting company and is part of the Tullis Russell Group. Together we have been specialists in the papermaking and paper coating industry for nearly two centuries.

Our extensive product range includes ceramic and textile transfer papers, security papers and a speciality resource for developing solutions for any challenges customers have for us.

We pride ourselves in our excellent customer service and have customers in over 120 countries throughout the world.

## Further Information

For each of our papers:

**Texitran CP**

**Texitran HS**

**Texitran ECO**

we have produced a leaflet which gives you further information and all the technical and ordering information you need.

We have also published some simple guides on getting the most from our **trutextile** range of papers:

- Better printing – how to transfer print effectively
- Inks, additives and adhesives – the best ones to use
- Troubleshooting – what to do if you have any problems while printing.

## Getting in touch

To place an order or for further information, please contact us. We look forward to hearing from you.

# Texitran HS

A **trutextile** paper from Tullis Russell

# Texitran HS

Is part of the **tru**textile range of textile transfer papers from Tullis Russell Coaters.

## What is it for?

Texitran HS is a lightweight, specialist paper for high quality decoration and has been designed for screen printing using plastisol ink systems.

It is ideal for designs with a matt finish, such as t-shirts, sweat shirts, care labels and socks.

## Features

- Specialist paper designed for screen printing
- Compatible with plastisol ink systems
- Excellent dimensional stability and lie flat properties
- Hot peel release – 95% colour transfer
- Coated on one side and precision sheeted

## Benefits

- Ease of release and matt finish, giving a soft feel result
- Resistant to ageing
- No need for hot split clear bases
- Reduced waste – ease of handling
- Sharper images and brighter colours

## Compatible inks

Plastisol, puff, fluorescent, glitter. Not compatible with powdered adhesives.
